Volume 36, Number 1 **February 1996**

M. SAAVEDRA AND M. PASTOR. Weed populations in olive groves under non-tillage and conditions of rapid degradation of simazine 1
A.L. HILL, A. D. COURTNEY AND B. M. R. HARVEY. An assessment of the possible reasons for differential tolerance to fluroxypyr in selected populations of *Galium aparine* 15
B. SEREDA, D. J. ERASMUS AND R. L. J. COETZER. Resistance of *Amaranthus hybridus* to atrazine 21
S. MILANOVA AND P. GRIGOROV. Movement and persistence of imazaquin, oxyfluorfen, fluorochloridone and terbacil in soil 31
A. WALKER, S. J. WELCH, A. MELACINI AND Y.-H. MOON. Evaluation of three pesticide leaching models with experimental data for alachlor, atrazine and metribuzin 37
KYU-OCK YIM AND D. E. BAYER. Root growth inhibition of rice by bensulfuron 49
L. ANDERSSON. Characteristics of seeds and seedlings from weeds treated with sublethal herbicide doses 55
H. S. XIE, A. I. HSIAO, W. A. QUICK AND J. A. HUME. Influence of water stress on absorption, translocation and phytotoxicity of fenoxaprop-ethyl and imazamethabenz-methyl in Avena fatua 65
A. ONOFRI. Biological activity, field persistence and safe recropping intervals for imazethapyr and rimsulfuron on a silty-clay soil 73
M. C. SMITH AND M. WEBB. Estimation of the seedbank of *Striga* spp. (Scrophulariaceae) in Malian fields and the implications for a model of biocontrol of *Striga hermonthica* 85
L. A. P. LOTZ, S. CHRISTENSEN, D. CLOUTIER, C. FERNANDEZ QUINTANILLA, A. LÉGÈRE, C. LEMIEUX, P. J. W. LUTMAN, A. PARDO IGLESIAS, J. SALONEN, M. SATTIN, L. STIGLIANI AND F. TEI. Prediction of the competitive effects of weeds on crop yields based on the relative leaf area of weeds 93
TECHNICAL ABBREVIATIONS 103

Volume 36, Number 2 **April 1996**

J. ROUCHAUD, F. GUSTIN, D. CALLENS AND R. BULCKE. Atrazine soil metabolism in maize fields treated with organic fertilizers 105
T. S. ANTONOVA AND S. J. TER BORG. The role of peroxidase in the resistance of sunflower against *Orobanche cumana* in Russia 113
L. NAVARRETE AND C. FERNANDEZ QUINTANILLA. The influence of crop rotation and soil tillage on seed population dynamics of *Avena sterilis* ssp. *ludoviciana* 123
G. W. CUSSANS, S. RAUDONIUS, P. BRAIN AND S. CUMBERWORTH. Effects of depth of seed burial and soil aggregate size on seedling emergence of *Alopecurus myosuroides, Galium aparine, Stellaria media* and wheat 133
F. DESSAINT, G. BARRALIS, M. L. CAIXINHAS, J.-P. MAYOR, J. RECASENS AND G. ZANIN. Precision of soil seedbank sampling: how many soil cores? 143
D. D. BUHLER, T. C. MESTER AND K. A. KOHLER. The effect of maize residues and tillage on emergence of *Setaria faberi, Abutilon theophrasti, Amaranthus retroflexus* and *Chenopodium album* 153
S. SANTIER AND A. CHAMEL. Penetration of triolein and methyl oleate through isolated plant cuticles and their effect on penetration of [^{14}C]quizalofop-ethyl and [^{14}C]fenoxaprop-ethyl 167
C. ANGONIN, J.-P. CAUSSANEL AND J.-M. MEYNARD. Competition between winter wheat and *Veronica hederifolia*: influence of weed density and the amount and timing of nitrogen application 175

E. LEFOL, V. DANIELOU, A. FLEURY AND H. DARMENCY. Gene flow within a population of the outbreeding *Sinapis arvensis*: isozyme analysis of half-sib families 189
A. FERRERO. Prediction of *Heteranthera reniformis* competition with flooded rice using day-degrees 197

Volume 36, Number 3 **June 1996**

M. WEBB AND M. C. SMITH. Biology of *Striga hermonthica* (Scrophulariaceae) in Sahelian Mali: effects on pearl millet yield and prospects of control 203
C. A. WILEN AND J. S. HOLT. Physiological mechanisms for the rapid growth of *Pennisetum clandestinum* in Mediterranean climates 213
S. D. SHARMA, R. C. KIRKWOOD AND T. L. WHATELEY. Effect of non-ionic nonylphenol surfactants on surface physicochemical properties, uptake and distribution of asulam and diflufenican 227
J. D. NALEWAJA, B. DEVILLIERS AND R. MATYSIAK. Surfactant and salt affect glyphosate retention and absorption 241
A. BERTI AND M. SATTIN. Effect of weed position on yield loss in soyabean and a comparison between relative weed cover and other regression models 249
C. M. DUNAN, P. WESTRA, F. MOORE AND P. CHAPMAN. Modelling the effect of duration of weed competition, weed density and weed competitiveness on seeded, irrigated onions 259
P. STORK AND M. C. HANNAH. A bioassay method for formulation testing and residue studies of sulfonylurea and sulfonanylide herbicides 271
ERRATUM 282

Volume 36, Number 4 **August 1996**

L. J. REW, G. W. CUSSANS, M. A. MUGGLESTONE AND P. C. H. MILLER. A technique for mapping the spatial distribution of *Elymus repens*, with estimates of the potential reduction in herbicide usage from patch spraying 283
A. DOLLING. Changes in *Pteridium aquilinum* growth and phytotoxicity following treatments with lime, sulphuric acid, wood ash, glyphosate and ammonium nitrate 293
M. M. LASAT, J. M. DITOMASO, J. J. HART AND L. V. KOCHIAN. Resistance to paraquat in *Hordeum glaucum* is temperature dependent and not associated with enhanced apoplasmic binding 303
E. PURBA, C. PRESTON AND S. B. POWLES. Growth and competitiveness of paraquat-resistant and -susceptible biotypes of *Hordeum leporinum* 311
C. C. BASKIN, J. M. BASKIN AND S. A. EL-MOURSEY. Seasonal changes in germination responses of buried seeds of the weedy summer annual grass *Setaria glauca* 319
T. HEISEL, C. ANDREASEN AND A. K. ERSBØLL. Annual weed distributions can be mapped with kriging 325
K. SEMB. Growth characteristics of spring barley and selected weeds. I. Effect of irradiance in growth chambers 339
K. SEMB. Growth characteristics of spring barley and selected weeds. II. Effect of temperature and irradiance in growth chambers 353
K. L. HOLLAWAY, N. D. HALLAM AND A. G. FLYNN. Synergistic joint action of MCPA ester and metsulfuron-methyl 369

Volume 36, Number 5 **October 1996**

A. C. GRUNDY, A. MEAD AND W. BOND. Modelling the effect of weed-seed distribution in the soil profile on seedling emergence 375
J. S. KETTLER. Weeds in the traditional slash/mulch practice of *frijol tapado*: indigenous characterization and ecological implications 385
M. J. VAN HEZEWIJK AND J. A. C. VERKLEIJ. The effect of nitrogenous compounds on *in vitro* germination of *Orobanche crenata* 395
S. J. CLARK, J. N. PERRY AND E. J. P. MARSHALL. Estimating Taylor's power law parameters for weeds and the effect of spatial scale 405
L. COX, A. WALKER, M. C. HERMOSIN AND J. CORNEJO. Measurement and simulation of the movement of thiazafluron, clopyralid and metamitron in soil columns 419
E. H. SATORRE, F. A. RIZZO AND S. P. ARIAS. The effect of temperature on sprouting and early establishment of *Cynodon dactylon* 431
J. SABADIE. Alcoholysis and chemical hydrolysis of bensulfuron-methyl 441

Volume 36, Number 6 **December 1996**

G. W. BOURDÔT, D. J. SAVILLE, G. A. HURRELL AND M. J. DALY. Modelling the economics of herbicide treatment in wheat and barley using data on prevented grain yield losses 449
B. JØRNSGÅRD, K. RASMUSSEN, J. HILL AND L. J. CHRISTIANSEN. Influence of nitrogen on competition between cereals and their natural weed populations 461
J. ZHANG AND A. S. HAMILL. Responses of *Abutilon theophrasti* to agricultural management systems 471
H. MÜLLER-SCHÄRER AND J. FRANTZEN. An emerging system management approach for biological weed control in crops: *Senecio vulgaris* as a research model 483
B. HEIMANN AND G. W. CUSSANS. The importance of seeds and sexual reproduction in the population biology of *Cirsium arvense* – a literature review 493
D. LEMERLE, B. VERBEEK, R. D. COUSENS AND N. E. COOMBES. The potential for selecting wheat varieties strongly competitive against weeds 505
J. KROSCHEL, A. HUNDT, A. A. ABBASHER AND J. SAUERBORN. Pathogenicity of fungi collected in northern Ghana to *Striga hermonthica* 515
